Port Moody

Installation of Additional Dewatering Wells at Seaview Drive and Clarke Road

The tunnel boring machine (TBM) is underneath Clarke Road at Seaview Drive as part of a planned maintenance stop to replace the cutterhead tools. To allow crews to safely complete the maintenance, additional localized dewatering wells will be installed on the east side of Clarke Road to further lower the ground water levels temporarily in front of the TBM.

All groundwater that is removed will be tested and disposed of in accordance with appropriate authority regulations.

The installation of the dewatering wells is expected to take up to three weeks and will require closure of the east access to Seaview Drive from Clarke Road. Local traffic will access the east side of Seaview Drive from Seaforth Way. Crews will be drilling these wells from the road surface of Clarke Road and Seaview Drive.

Traffic on Clarke Road continues with one lane in each direction; however traffic patterns may change if equipment needs to re-position to different locations.

WHAT TO EXPECT

- Hours of work will be 7 a.m. to 10 p.m. Monday through Saturday and 10 a.m. to 6 p.m. on Sunday (if required). Every effort is being made to complete work as early as possible in the evening; however, work may extend until 10 p.m. when required.
- A drill rig will be on site within a secure work area on Clarke Road to drill and install the dewatering wells.
- Noise related to construction activities will include drills, pumps, generators, air compressors, hydro-vacuuming, and the use of heavy machinery.
- Crews will be operating generators throughout the night as part of the dewatering process, but they will be covered to minimize noise and disruption to nearby residents.

CONSTRUCTION AND TRAFFIC BULLETIN

Port Moody

(Continued from page one)

Detailed Traffic Pattern Changes

Clarke Road

- Lane closures on Clarke Road at Seaview Drive will remain in effect while this work is underway. A minimum of one lane in each direction will be maintained.

Seaview Drive (West)

- The west connection of Seaview Drive to Clarke Road will remain closed. Local residents wishing to access Clarke Road from Seaview Drive on the west side should continue to use the detour to Glenayre Drive.

Seaview Drive (East)

- The east connection of Seaview Drive to Clarke Road will be closed until the installation of the dewatering wells is complete.
- Local residents wishing to access Clarke Road from Seaview Drive on the east side will be temporarily detoured to Seaforth Way.
- When the installation of the wells is complete, right out access from Seaview Drive to Clarke Road on the east side will be restored.

Safety

- The speed limit on Clarke Road will continue to be reduced from 50 km/h to 40 km/h while work is underway.
- Digital speed warning boards have been installed to warn drivers if they are travelling too fast and additional enforcement will be in effect during the duration of construction.
- Traffic control personnel will be on-site at Clarke Road and Seaview Drive during working hours to assist drivers.
- Drivers, cyclists and pedestrians are asked to watch for construction and detour signs, observe posted speed limits, proceed with caution and follow the directions of traffic control personnel.

Your ongoing patience and understanding is appreciated. Please contact the Traffic Information Line at 604-927-2080, available 24 hours a day, seven days a week with any questions or concerns.
